

Eibach[®] THE WILL
SPRINGS TO WIN

EMS-11

Eibach Motorcycle Springs

SPRINGS

Eibach Springs: Quality Unsurpassed

Eibach makes the finest performance springs in the world. Period. When other springs sag, wear out, or create sketchy handling or a bone-crushing ride, top motorcycle tuners—like top race teams—inevitably turn to Eibach. And, also inevitably, wonder why they didn't choose Eibach in the first place.

- **Precision Tolerances—The Tightest in the Industry**
- **Ultra-Lightweight, for Reduced Unsprung Mass**
- **Maximum Deflection in Combination with Smallest Block Heights**
- **Precision Planparallel and Square End Configurations Under Unloaded and Loaded Conditions**
- **Lowest Side Loads with Load Center Ideally Located Relative to Spring Axis**
- **Exceptional Block Resistance and Durability**

To produce springs with unparalleled precision and repeatability, Eibach uses the world's finest Hi-Ten spring steel, produced to exceedingly precise tolerances. We use world-renowned German CNC coilers, as well as many machines engineered and built specifically by Eibach. In short, we use state-of-the-art technology, in every step of the manufacturing process.

But it's not just about machines and technology: it's about people.

Most notably, the Eibach Springmeisters, working at production plants in Germany and the USA: Talented, expert craftsmen, each committed to creating the finest motorcycle springs in the world.

Performance Perfected.
